"Great quality at an attractive price"

delamar.de 04/2018

"Affordable large diaphragm condenser microphone with cardioid polar pattern, filter, pad and spider: the ECMS-90 from IMG STAGELINE impresses with an absolutely perfect performance in its price class. I really

like the well-balanced sound ... It provides a percussive sound which is rich in detail and hardly changes, even if the perfect angle for positioning the microphone deviates by more than 30°. The background noise is almost non-existent. It also features high-quality accessories and impeccable workmanship. All in all, a top microphone for ambitious home recording."

TECHNICAL SPECIFICATIONS

ECMS-90

Description large diaphragm microphone

Transmission method cable

Polar pattern cardioid
